# ApiFort

MEET APISTRIKE!

WHAT IS **APISTRIKE?**

ApiStrike is a powerful API scan module designed to help organizations proactively identify and address potential vulnerabilities in their APIs.

Identifies APIs

Customizable Security Scans

Reveals Vulnerabilities

Enhances Security Early

Identifies **APIs**

Detects APIs using Swagger URL/file options across different environments.

Customizable
Security Scans

Enforces predefined rules while allowing users to modify existing ones or add new rules.

Reveals
Vulnerabilities

Highlights critical weaknesses in your endpoints.

Enhances
Security Early

Enables fixes before deployment for a safer API lifecycle.
